

VALENTINE FOUNDATION

Final Grant Report – Single Year Grants, due January 15th

To submit: e-mail one copy to Alexandra Frazier, Executive Director, Valentine Foundation
<avafrazier@gmail.com> **and one copy to the relevant Trustee.**

Grantee name:

Year Awarded Grant:

Amount of Grant: \$

General Framework: *The Valentine Foundation makes grants to organizations and for programs that the Trustees believe will result in meaningful social change. The overarching purpose of your final report is to help us understand how your use of the Valentine Foundation grant has contributed to your efforts toward meaningful social change.*

1. Define your goals and objectives for this funding period.

2. What did you accomplish?

Please relate these accomplishments to the Social Change Indicator(s) that you identified with your grant. Please describe in terms of both *specific results* (“we organized a rally that attracted 200 people”) and *larger outcomes* (“the outcome of the rally was media coverage which made it easier for us to get face time with local legislators”).

3. What are you using to measure/determine your accomplishments?

4. What has changed in the course of the year (both internal to your organization/project and externally) that has affected -- either positively or negatively -- your ability to use the grant **as originally proposed**? Please detail any changes to staff or board, financial climate, legislative or political changes, etc., that have had an impact on the achievement of your goals and objectives.

5. The Valentine Foundation uses the Women’s Funding Network “Social Change Indicators” matrix to define and measure social change: <http://www.valentinefoundation.org/pdf/socialChangeMatrix.pdf>) Did using this model when completing your application, midterm report and this final report have any influence on the way you conceptualize your organization/specific project? Why, and how?

6. What are your next steps in meeting your social change agenda?

7. Are you engaged in any special partnerships or collaborations that could help you achieve your social change goals? If yes, please describe.

8. Given the Valentine Foundation’s mission to forward social change for women and girls, what suggestions do you have for the Foundation’s Trustees?

9. Provide a detailed breakdown of how the Valentine Foundation funds were used, including your proposed budget and actual expenditures. Explain any variances.
